

## Remove White Spaces

To apo katw itan gia ena input me id username kai antikatastei ola ta space me keno(delete vasika oxi space miazi periergo to kserw). kai ta dio functions prepi na ta kaleseis kapws..malon vazontas mesa sto input auta: onfocusout="NoYouWont()" kai to onkeypress="CheckSpace(event)".

```
function NoYouWont(){
    var hungry = document.getElementById("Username").value;
    var res = hungry.replace(/\s+/g, "");
    document.getElementById("Username").value = res;
}
```

\s means "one space", and \s+ means "one or more spaces".  
/g flag (replace all occurrences)

to apo katw den afinei ton xristi na pataei space mesa sto input alla se afinei na kaneis copy paste....opote thes kai ta dio functions..

```
function CheckSpace(event)
{
    if(event.which ==32)
    {
        event.preventDefault();
        return false;
    }
}
```
